LED BUG TRAP

Eliminates mosquitoes and other winged insects in a discrete, quiet fashion.

Enjoy bug-free evenings outdoors with the LED Bug Trap. Simply plug the unit into any 110v outlet and the 6 LED's produce UV light that attracts insects. Once in range, the bugs are sucked inside by the vacuum where they are captured in the removable collection net.

- Whisper quiet vacuum fan
- Attracts insects with UV light
- Removable collection net
- Safe and effective
